

Application No.: 09/996,439
Filing Date: November 28, 2001

REMARKS

Claims 1-9, 28-35 and 37-47 were pending in this application. As discussed in greater detail below, Claims 1-9 stand rejected as being unpatentable over certain references. Further, Claims 28-35 and 37-47 are allowed. Claims 10-27 were previously canceled. As discussed in greater detail below, Claims 1-9 are canceled without prejudice herein. Accordingly, Claims 28-35 and 37-47 are presented herein for further consideration.

Claim Rejections under 35 U.S.C. §102

Claims 1-9 stand rejected under 35 U.S.C. §102(b) as being anticipated by Japanese Patent Publication No. 5-10700 or U.S. Patent No. 2,826,135 to Benzick. In the Office Action, the Examiner concludes that Japanese Patent Publication No. 54-97212, Japanese Patent Publication No. 53-80603 and/or U.S. Patent No. 5,226,188 to Liou may also be used to reject Claims 1-9 under 35 U.S.C. §102 or §103 grounds.

Applicant disagrees with the Examiner's characterization of the cited references in view of Claims 1-9, and Applicant respectfully traverses the rejection of these claims. However, in order to expedite prosecution, Applicant has canceled Claims 1-9 herein without prejudice. Applicant reserves the right to pursue claims similar to the original claims or other previously presented versions of the claims, including the previously pending versions of Claims 1-9, in a continuing application.

Claims 28-35 and 37-47

Applicant thanks the Examiner for the allowance of Claims 28-35 and 37-47.

Supplemental Reissue Declaration

In accordance with MPEP 1414.01, a Supplemental Reissue Declaration executed by an authorized representative of the Assignee of the present application is being transmitted to the U.S. Patent and Trademark Office together with this amendment and response.

Status of Claims, Explanation of Claim Amendments and Support therefor - 37 C.F.R. §1.173(c)

Claims 1-9, 28-35, 37-47 were pending in this application. Claims 1-9 are canceled without prejudice herein. Claims 10-27 were canceled without prejudice as part of the Amendment filed with the U.S. Patent and Trademark Office on November 11, 2008. Claims 28-35, 37 and 38 remain pending and are identical to the originally-filed versions (e.g., as presented in a Preliminary Amendment on November 28, 2001 simultaneously with the present application). Claims 39-47, which were added as part of the November 11, 2008 Amendment, correspond to the original versions of Claims 1-9. That is, Claims 39-47 correspond to Claims 1-9 as originally submitted in the present application.

The status of the claims is provided in the following table. A list of support from the specification and figures of the original patent, U.S. Patent No. 5,597,200 ("the '200 patent"), for the presently pending claims is also provided in the table. This list is not intended to be comprehensive. As noted above, the only amendments to the claims made herein include the cancellation of Claims 1-9.
